1. Composition
2. Comprehension
3. Parts of Speech
4. Articles
5. Active and Passive Voice
6. Direct and Indirect Speech
7. Punctuations
8. Jumbled words to form meaningful sentences

Class VI
ENGLISH SAMPLE QUESTION PAPER

Time: 01 Hour                                                                        Max. Marks: 100

Q.1: Write a composition of 150 words on any ONE of the following:

A Train Journey
or
Life In The City Where I Live

15 Marks
Q.2: Comprehension passage- 15 marks

A. Read the following passage carefully and answer the questions that follow:

It was very hot in the courtroom. Everybody was feeling sleepy. After a tiring morning, the clerks were anxious to get off to lunch. Even the judge seemed relieved when the last case came up before the court. A short middle-aged man with grey hair and small blue eyes was now standing before him. The man had a foolish expression on his face and he kept looking stupidly as if he was trying hard to understand what was going on. The man was accused of breaking into the house and stealing a cheap watch. The witness who was called did not give a very clear account of what had happened. He claimed to have seen the man outside the house one night, but on being questioned further, he confessed that he was not sure whether this was the man. The judge considered the matter for sometime and said that there was no real proof, the man could not be found guilty of any crime. He said that the case was dismissed and then he rose to go. Meanwhile the accused looked very puzzled and said suddenly, "Excuse me, sir, but do I have to give the watch back or not?"

1. Why did the judge feel relieved when the last case came up? [2 marks]

2. What did the last person facing the judge look like? [2 marks]

3. The man was charged with .................................................. (Complete the statement) [2 marks]

   ...........................................................................................................
   [1 mark]

7. What was the state of the man facing trial?  
   ...........................................................................................................
   [1 mark]

B. Fill in the blanks with words chosen from the text. [5 marks]

A. He didn’t steal anything. Why is he being……………………?

B. The…………………… gave a detailed description of the accident.

C. At last he…………………. that it was he who had committed the crime.

D. The…………………….. on Mary’s face showed that she was cross.

E. The mathematical problem………………………….. me completely.

GRAMMAR AND VOCABULARY

Q.3 Frame questions for the following. [2 marks]

A. I should finish my homework in about two hours.

...........................................................................................................

B. My parents have gone to Mysore to attend a wedding.

...........................................................................................................

Q.4 Complete the sentences using the past continuous form of the verb. [2 marks]

A. The children/ feed ducks in the pond.

...........................................................................................................
B. My mother/ cook/ when I returned from school.

Q.5 Correct the incorrect sentences. [2 marks]

A. What can we said now?

.................................................................

B. The poor boy grabbed the bread and ate it hungry.

.................................................................

Q.6 Use appropriate punctuation. [2 marks]

raji and ravi are good friends they like reading singing going on long walks and trekking.

.................................................................

Q.7 Choose the right answer. [4 marks]

A. Anu……………………………. her hand before entering her school bus. (shakes, waves)

B. Soldiers who fight on horses are part of……………………….. (cavalry, infantry)

C. He usually…………………………. a tune while taking a bath. (whistles, calls out)

D. A judge……………………….. disputes.( mumbles, settles)

Q.8 Change into adjectives. [2 marks]

A. disability………………………………….

B. attention…………………………………..

Q.9 Rewrite the sentences using the words in brackets so that the meaning does not change. [2 marks]

A. The book is worthy of its high cost. (valuable)..................................................
B. Manu got a lot of money selling fish. (earn)…………………………………………………………

Q.10 Make a compound word for the following. [4 marks]

1. bed………………………….
2. house………………………..
3. shoe………………………….
4. foot………………………….

Q.11 Choose the right answer. [10 marks]

a. I……………………….. to bring her book yesterday. (have remembered, remembered)
b. She is tired now as she…………………. a long distance.(has walked, walked)
c. …………………………… is 8.30.(half past eight, quarter to eight)
d. For the past few years he……………….. ill.(was, has been)

f. …………………………… should you be there?(when, what)
g. Next week, I am …………………. to my hometown.(go, going)
h. Usually, we………………….. together and eat.(sit, are going to sit)
i. He has to reach office……………….. time.(at, in)
j. She………………………. her course in 1994.(completed, has completed.)

Q.12 Change into indirect speech. [5 marks]

1. He told his mother,<< I am hungry>>
   …………………………………………………..

2. Alice asked Mary,<< Why are you crying?>>
   ……………………………………………………

3. His mother asked John,<< Have you washed your hands?>>
   ………………………………………………………

4. Jeet said,<< I shall be meeting Hari tomorrow.>>
   ………………………………………………………

5. Ram said,<<Ma, I am feeling ill.>>
   ………………………………………………………
Q.13 Fill in the blanks with appropriate prepositions [10 marks]

1. The dog jumped……………… the gate and ran……………… the postman.

2.<< Go……………. bed at eight and sleep…………… a hard bed,>> advised the doctor.

3. The ball rolled…………….. the table and came……….. a stop.

4. Some of the boys ran…………. the field and jumped………… the pond for a swim.

5. Raja could not see anything……………… the dark and bumped…………. a tree.

Q.14 Change the voice [5 marks]

1. Shyam cooked the dinner……………………………………………………………………………………………

2. One must obey the rules……………………………………………………………………………………………

3. Who wrote the Mahabharata?…………………………………………………………………………………………

4. A thief stole my watch…………………………………………………………………………………………………

5. The children were singing a song……………………………………………………………………………………

Q.15 Fill in the blanks with suitable interrogative adverbs [5 marks]

1. I cannot switch on this recorder………… do you do it?

2.……………. have you put the books? I have been looking for them all day.

3.……………. many questions did Sam answer?

4.……………. has John come so early? Nobody will come before evening.

5.……………. important is the letter? Should I send it immediately?

Q.16 Rewrite the following, using contractions wherever possible [5 marks]

1. We had repeatedly warned him that he should not go there alone.

…………………………………………………………………………………………………………………………

2. Can you not hear the bell ringing?

…………………………………………………………………………………………………………………………
3. Sanjiv is not well today.

4. We have got school tomorrow!

5. Paul did not listen to us.

Q.17. Join each set of sentences with the conjunction given within brackets  [10 marks]

1. He wants to rest. He is tired. (because)

2. Consider everything carefully. Then make up your mind. (before)

3. Swapan wanted to join a university. He wanted to become an engineer. (in order that)

4. You must have determination. You will surely succeed. (if)

5. He is intelligent. His brother is intelligent. (both……and)

Sample Paper (Entrance Examination for Class VI)

SUBJECT - HINDI

निर्देश : इस प्रश्न पत्र में कुल 09 प्रश्न हैं। सभी प्रश्नों के उत्तर देना अनिवार्य है।
Instructions: This question paper has only 09 questions. All questions are compulsory.

निर्देशानुसार उत्तर दीजिए :

1. लिंग (Gender) बदलिए :
   8
   क. पुत्र ................................. ख. नौकर ........................................
   ग. सेठ ................................. घ. श्रीमान ........................................
   ड. छात्र ................................. च. गायक ........................................
   छ. मामा ................................. ज. बालक ........................................

2. वचन (Number) बदलिए :
   8
   क. केला................................. ख. पंखा ........................................
   ग. आँख ................................. घ. लड़की ........................................
   ड. टोपी ................................. च. कार ........................................
   छ. डिबिया ................................. ज. पुस्तक ........................................

3. विलोम (Antonyms) लिखिए :
   8
   क. जीत................................. ख. हानि ........................................
   ग. गुण ................................. घ. अपना ........................................
   ड. शात्रु ................................. च. आशा ........................................
   छ. कोमल ................................. ज. अंधकार ........................................
4. शुद्ध शब्द (correct words)लिखिए :

क. नराज .................................................. ख. श्रीमति ........................................
ग. बिमारी ..........................................घ. पती ........................................
ढ. मूरख ...........................................च. परीक्षा ........................................
�. तिथि ...........................................ज. दिवाली ........................................

5. हिन्दी शब्द (Translate in to Hindi) लिखिए :

क. Teacher........................................... ख. Class ........................................
ग. Religion.........................................घ. Monday ........................................
ढ. King ...........................................च. Examination -...................................
�. Poem -........................................... ज. Kite ........................................

6. निम्नलिखित शब्दों के दो—दो पर्यायवाची (Synonyms)लिखें :

क. आग ................................................
ख. आँख ................................................
ग. चाँद ................................................
घ. आकाश ...........................................
ढ. संसार ...........................................
7. निम्नलिखित अनेक शब्दों के लिए एक शब्द (One word Substitution):

क. जो दिखाई न दे

ख. जिसके माता-पिता न हों

ग. जो कभी न मरे

घ. जो माँस न खाता हो

ड. जो ढरता हो

8. निम्नलिखित विषयों में से किसी एक विषय पर 250 शब्दों का
निबंध (Essay)लिखें:

क. मेरा प्रिय मित्र | ख. मेरा विद्यालय | ग. मेरा प्रिय अध्यापक |
प्रश्न – 9 नीचे लिखे चित्र (Picture) को देखकर 80 से 100 शब्दों में
उसका
वर्णन कीजिए।

Syllabus for Entrance Examination to Class VI

Plant Life: Increasing the numbers
Animal Life: Varying lifestyles
Our Body: Our skeletal system; Our nervous system; Food and health; Safety and first aid; A house to live in
Our Universe: Erosion and conservation; Rocks and minerals, Our life supports; Our universe; Force, work and energy; Solids, liquids and gases

Sample Paper for Entrance Examination to Class VI

General Science

Time: 01 hours
Marks: 100

General Instructions:
➢ All questions are compulsory.
➢ Questions are to be answered on the question paper itself (on the space provided against each question).

Q.1. Fill in the blanks.

(20)

1. If an arm is broken the injured arm should be supported by a ________________.

2. Farmers add ________________ to the soil to make it fertile.

3. Houses in the hills have ________________ roofs.

4. Cutting off air helps to put out a ________________.
5. The moon is a ___________________ of the earth.

6. The first man to land on the moon was ____________________________.

7. Gases have no definite ________________ or ________________.

8. Matter is a substance that has _______________ and occupies space.

9. As we go higher, the atmospheric pressure _____________________.

10. Water is disinfected with a very small amount of ________________ gas that kills bacteria.

11. Liquids have a definite volume but no fixed ________________.

12. _________________ is an important fertilizer.

13. _________________ prevents rusting of iron.

14. Houses in the ________________ are built on stilts.

15. The muscles under our control are called ________________ muscle.

16. When a bone breaks we call it a ________________.

17. There is a high tide about every ________________ hours.

18. Tides are caused because of the moon’s pull on the ________________.

19. Green plants take in ________________ from the air and water from the soil to prepare their food.

20. Petroleum is formed from the remains of ________________.

Q.2. Write one word for each.

(15)

1. Layer of air surrounding the earth. ____________________.

2. Disease caused by deficiency of vitamin B. ____________________.

3. Narrow tubes in the body through which the blood flows: ________________.
4. Smallest unit of an animal or plant.  ________________.

5. The actions controlled by the spinal cord.  ________________.

6. Largest part of the brain; it controls our intelligence, speech and thinking.  
   ________________.

7. The process of scattering seeds.  ________________.

8. Blocking light of sun or moon by the shadow of another heavenly body.  
   ________________.

9. Outbreak of a disease affecting many people at a time.  
   ________________.

10. Metamorphic rock formed from granite.  ________________.

11. Amount of water vapour present in the air.  ________________.

12. Natural substance in earth’s crust which is neither a plant nor an animal.  
   ________________.

13. An igneous rock which looks like black glass.  ________________.

14. Young plant is known as:  ________________.

15. Swelling of glands of the throat due to lack of iodine in the body.  
   ________________.

Q.3.  Match the columns.  
   (5)

<table>
<thead>
<tr>
<th>Column A</th>
<th>Column B</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Dysentery</td>
<td>Mosquito bite</td>

<td>Direct contact</td>
</tr>
<tr>
<td>4. Hookworm</td>
<td>Cut in the skin</td>
</tr>
<tr>
<td>5. Ringworm</td>
<td>Polluted soil</td>
</tr>
</tbody>
</table>
Q.4.  Give one example of each.  
(10)

1) An animal that migrates ____________________
2) A fish eating animal _______________________
3) An animal that lives both on land and water ______________________
4) An animal that lays eggs _____________________
5) A sedimentary rock ________________________
6) A metal used for making wire __________________
7) A liquid fuel ______________________________
8) Traces of ancient life in between layers of rocks ______________________
9) A good solvent ____________________________
10) A disease that spread through air ___________________

Q.5.  Complete the second pair.  
(5)

1. Fish : gills : : man : ___________
5. Bitter : taste buds : : sound : ______________

Q.6.  Tick the most appropriate answer.  
(10)

1. A low ceiling keeps a room 
   a. warm                                                b. cold
   c. damp                                                c. bright

2. Of these which material does not burn 
   a. paper                                               b. iron
   c. cloth                                               d. petrol
3. Which of the following does not cause burns
   a. chemicals                                       b. water vapour
   c. heat                                                c. steam

4. Wire gauze on windows keeps
   a. animals out                                     b. thieves out
   c. insects out                                      d. guests out

5. A fractured bone should not be moved without support because
   a. a fracture is painful                        b. a fracture causes swelling
   c. the pieces of the broken bone should not move out of position

6. Nerves which carry impulses to the brain are
   a. spinal cord                                     b. motor nerve
   c. mixed nerves                                 d. sensory nerves

7. The lungs and heart are protected by the
   a. skull                                               b. rib cage
   c. shoulder bone                                d. backbone

8. Movements of the human body are produced by the contraction and relaxation of
   a. nerves                                             b. blood
   c. bones                                              d. muscles

9. All the following are communicable diseases except for
   a. cancer                                             b. cholera
   c. measles                                           d. small pox

10. Snakes move with the help of
    a. limbs                                               b. wriggling movement
    c. plates on the lower side                  d. legs

Q.7. Tick (√) mark the correct word/phrase in the bracket. (20)

1) Fishes swim with the help of their (legs/fins)

2) Webbed feet are found in (frogs /lizards).

3) Bees make (nests/ hive).

4) Insects breathe through (lungs/air tubes).

5) (Fishes/toads) migrate.

6) A butterfly has (sucking/piercing) mouthparts.

7) Seeds should be stored in (airtight/air filled) containers.
8) Rodents are (friends/enemies) of farmers.

9) (Coconut/mangoes) float to far off places.

10) Air exerts (weight/pressure).

11) Expired air contains (more/less) carbon dioxide than inspired air.

12) The inactive part of air is made up of (oxygen/nitrogen).

13) Chalk is (soluble/insoluble in water).

14) Fossils are found in (igneous/sedimentary) rocks.

15) Scientists who study rocks are called (geologists/zoologists)

16) (Copper/diamond) is used to make coins.

17) The joints between the bones of the skull are (movable/immovable).

18) It is dangerous to go near the fire wearing (cotton/nylon) clothes.

19) If petrol catches fire we should throw (sand/water) over it.

20) The first objective of first aid is to (save life/relieve pain).

Q.8. Write [T] for the true and [F] for the false against each statement given below. (15)

1) Flies spread malaria. [   ]

2) The shoulder joint is a ball and a socket joint. [   ]

3) The heart muscle is an involuntary muscle. [   ]

4) The hip joint is a hinge joint. [   ]

5) Chemical burns should be washed with a solution of potassium permanganate. [   ]

6) The density of seawater is less than that of fresh water. [   ]

7) A crow bar is an example of a first class lever. [   ]

8) Petroleum is a fossil fuel. [   ]
9) All insects have wings.

10) The conditions needed for the germination of seeds are soil and wind.

11) Coal is a sedimentary rock.

12) The air that we breathe in contains carbon dioxide.

13) The hot magma that reaches the surface of the earth is called lava.

14) A wheel barrow is an example of third class lever.

15) A screw is an example of wheel and axle arrangement.
SYLLABUS FOR ENTRANCE TEST  
CLASS VI  
MATHEMATICS  
CLASS – VI

Geometry  
SHAPES & SPATIAL UNDERSTANDING  
Gets the feel of perspective while drawing a 3-D object in 2-D. Gets the feel of an angle through observation and paper folding. Identifies right angles in the environment. Classifies angles into right, acute and obtuse angles. Represents right angle, acute angle and obtuse angle by drawing and tracing.  
Explores intuitively rotations and reflections of familiar 2-D shapes. Explores intuitively symmetry in familiar 3-D shapes. Makes the shapes of cubes, cylinders and cones using nets especially designed for this purpose.  

Numbers  
NUMBERS AND OPERATIONS  
Finds place value in numbers beyond 1000. Appreciates the role of place value in addition, subtraction and multiplication algorithms. Uses informal and standard division algorithms. Explains the meaning of factors and multiples.  
FRACTIONAL NUMBERS  
Finds the fractional part of a collection. Compares fractions. Identifies equivalent fractions. Estimates the degree of closeness of a fraction to known fractions. Uses decimal fractions in the context of units of length and money. Expresses a given fraction in decimal notation and vice versa.  
Money  
Applies the four operations in solving problems involving money.  
Measurement  
LENGTH  
Determines area and perimeter of simple geometrical figures. Applies the four operations in solving problems involving length, weight and volume. Relates commonly used larger and smaller units of length, weight and volume and converts one to the other.  
Applies simple fractions to quantities. Converts fractional larger unit into complete smaller units.
Appreciates volume of a solid body: intuitively and also by informal measurement. Uses addition and subtraction in finding time intervals in simple cases.

**Data Handling**
Collects two-dimensional quantitative data. represents the data in the form of a table. Draws a bar graph or a pictograph to present a data.

**Patterns**
Identifies patterns in square numbers, triangular numbers. Relates sequences of odd numbers between consecutive square numbers. Makes border strip and tiling patterns.

---

**SANAWAR**

Sample Question Paper for Entrance Examination
**Class VI**

**MATHEMATICS**

**Time**: 01 Hour  
**Max. Marks**: 100

**General Instructions**: -

- Answer all the questions on this sheet only.
- No separate sheet will be provided for rough work.
- Write neatly and briefly.
- Question 1 to 16 carries 5 marks each.
- Question 17 to 18 carries 10 marks each.
Q1. Write the Roman Numerals for the following:

(a) 49 = 
(b) 51 = 
(c) 89 = 
(d) 97 = 

Q2. The cost of a cooler is Rs.5296 & the cost of a computer is Rs.25050 more than the cost of the cooler. Find (i) the cost of the computer & (ii) the cost of computer & cooler.

Q3. (i) Find the prime factors of: 96

(ii) Find the HCF for: 72 & 48.

Q4. Arrange the following fractions in the ascending order:

\[
\frac{4}{6}, \frac{3}{8}, \frac{6}{12}
\]
Q5. Find the sum of: \[ \frac{7}{18} + \frac{5}{6} + \frac{11}{12} \]

Q6. Write each of the following as decimals:

(a) Forty six & five tenths. =

(b) Nineteen & nineteen hundredths. =

(c) Thirty point two. =

(d) Eight thousandths. =

(e) Two hundred nine & six hundredths. =

Q7. Find the product of:

(a) \[ 3.76 \times 10 = \]

(b) \[ 35.8 \times 100 = \]

(c) \[ 0.1 \times 1000 = \]
Q8. Find the quotient when 804 is divided by 4.02.

Q9. Convert into the required units:

(a) 4250 ml into l. =

(b) 9505 mm into m. =

Q10. Find the duration of time:

(a) from 7:30 am to 12 noon =

(b) from 2:15 pm to 10:10 pm =
Q11. A shopkeeper earns a profit of Rs75 on each sewing machine. If the C.P of a machine is Rs.2018.50. What is its S.P?

Q12. Draw the following:

   a) A line.

   b) A circle.

Q13. Classify each of the following as acute, obtuse or right angle:

   (a) 138° = 

   (b) 76° = 

   (c) 90° = 

   (d) 93° =
Q14. Draw a line segment AB of length 5 cm. With the help of a protractor draw angles of $55^\circ$ & $155^\circ$ at A and B as vertices & line segment AB as one of the sides.

Q15. Draw a triangle & name it. Also write the names of the sides & vertices of the triangle.

Q16. Draw a line segment PQ of length 6 cm. Take P as centre & radius 3 cm and draw a circle. With Q as centre & radius 3 cm draw another circle.
Q17. Find the perimeter & area of the rectangle with length 5 cm & breadth 1 cm. Also, find the area & perimeter of the rectangle with length 4 cm & breadth 2 cm.
(a) Are the two perimeters equal?
(b) Are the two areas equal?

Q18. A cuboid is 6 cm long, 3 cm broad, & 3 cm high & a cube has an edge of 6 cm. Which one has greater volume & by how much?
