Time: 01 Hour

Max. Marks: 100

Subject: English

A. Read the following passage carefully and answer the questions that follow:

1. The great Greek hero Hercules had to complete twelve difficult tasks, called the twelve labours. One of them was cleaning out the stables of Augeas, the King of Elis.
2. Augeas' stables were renowned, not only for their huge size and the vast numbers of cattle they contained, but also for their extreme dirt, garbage and filth. The stables had not been cleaned since they were built and there was a mountain of dirt and dung. Hercules, with all his strength, would not have managed it in a hundred years.
3. When Hercules saw the stables, he was shocked. So far all the tasks he had completed were worth his heroism. This was scavenger's job! Hercules demanded to be paid one-tenth of the cattle that Augeas owned. Augeas agreed, because he was sure that the hero would never be able to finish the task.
4. Hercules glimpsed the kingdom's main river Alpheus glinting in the sun. Immediately he found the answer. He would change the direction of the river. Hercules started digging near the river's source to the stable's main entrance. He made the channel narrow, so that the water gushed with tremendous force, sweeping through the stable and carrying all the litter out with it. Such was its power that not a scrap of litter was left!
5. It is said that Augeas refused to give Hercules his reward because he said that it was the river and not Hercules that had cleaned his stables. The legend has given us the phrase "**Cleaning the Augean Stables**". It means the (Herculean) task of getting rid of corruption especially in government departments.
