

Report: Successful organization of Inter School Science Quiz- Synergy 2024.

The faculty of science successfully organised the Inter School Science Quiz-Synergy 2024 as a part of the Science Mathematics and Computer Science Conclave: Steam Synergy 2024.

We are thrilled to report the resounding success of the Inter School Science Quiz: Synergy 2024. The questions were meticulously crafted to challenge and entertain participants while promoting learning and knowledge-sharing.

The event was executed smoothly and achieved its objectives effectively of encouraging a scientific temperament among the students.

Our quiz team demonstrated unwavering dedication and commitment in preparing for the competition. Through effective communication and mutual support, they worked together seamlessly to tackle difficult questions and navigate the competition with confidence.

Eight Teams participated in The Inter School Science Quiz. After a screening test the top four teams made it to the Final Quiz.

All the four teams excelled in the initial rounds of the quiz and were on equal points. However, towards the latter half the Bhavan Vidyalaya, Chandigarh took an appreciable lead. In spite of this, our quiz team remained resilient and determined. They maintained a

positive attitude, and persevered through adversity, showcasing their determination to succeed.

The Lawrence School Team ultimately caught up with Bhavan Vidyalaya School, Chandigarh but after a tough fight lost to them in a Tiebreaker.

Though Sanawar team was the Runner-up team, their fighting spirit and the ability to face challenges was well appreciated by everyone.

The Lawrence School, Sanawar was represented by

Karanveer Singh Class IX, Aaisha Nair. Class VIII and Dahirya Gupta Class VII

The quiz program garnered significant interest and an enthusiastic involvement from all the teams.

In alignment with the recommendations of NEP and NCF and to promote integration of Art with Science, a component of art integration also exhibited through an excellent video made by our students.
