

“Sanawar Students Excel in LOGIQIDS Olympiad”

The Lawrence School, Sanawar continues its legacy of academic excellence and innovation with a stellar performance in the **LOGIQIDS Olympiad 2024–25**.

- All students from **Classes L III to L V** were registered for the LOGIQIDS Olympiad by the **Faculty of Mathematics**.
- Prior to the exam, students were given structured **lessons and practice sessions** in the Math Lab to develop their logical reasoning skills.
- The **Stage I Olympiad** was conducted **offline on 20 November 2024**.
- Out of **443 registered students**, an impressive **281 students** have qualified for the **Final Round**.
- This is a significant achievement and speaks volumes about the efforts of both students and faculty.

We are delighted to share that, based on his exceptional performance in the Final Round, one of our students **Viyaan Chugh** (Grade 9) has been shortlisted for the prestigious **LQ Ideathon – Young Thinkers Challenge**, an initiative by LOGIQIDS in collaboration with **Techfest, IIT Bombay**.

This national-level challenge invites students to solve real-world problems through innovation and logical reasoning.

This nomination is a testament to the quality of education and mentoring provided at our institution. We are deeply grateful for your continued encouragement and leadership that enables such holistic student development.

I extend my heartfelt gratitude to all members of the Mathematics Faculty for their dedicated efforts, meticulous planning and unwavering commitment.

The Faculty of Mathematics extends a sincere gratitude to the Headmaster, Mr. Himmat Singh Dhillon for his inspiring leadership; to the Deputy Headmaster, Mr. Ravi Kumar for his steadfast support and to the school administration for their tireless assistance.
